

Gurit to Exhibit its Engineering Capabilities at Composites Europe 2012

5th October 2012, Isle of Wight, UK – Gurit, a leading global supplier of composite materials and technical solutions to the wind energy, transportation, tooling, marine markets and other selected application areas is to exhibit at Composites Europe 2012, from Tuesday 9th October to Thursday 11th October 2012. The exhibition to be held at the Messegelände Düsseldorf, Germany is the 7th European trade fair and forum for composites, technology and applications.

Exhibiting on stand B02, Hall 8, Gurit will be showcasing its capabilities in engineering, materials science, prototyping and manufacturing under its Business Unit, Engineered Structures.

Engineered Structures is focussed on providing excellence in engineering support to Gurit's target markets, while proving the value of composites in the next generation of applications. With one of the largest, most capable composite engineering teams, located across three continents, Engineered Structures is ideally placed to support the most challenging, global projects. Staff from the Sales, Technical and Marketing teams will be available at the show to discuss Gurit's capabilities.
